Small horn slide

Small horn specially designed for children (2 styles), small chongtian slide, children due to height Reason can't play big water park equipment.A special set The plan is completely suitable for children to play the "small horn", the same experience to challenge the joy.

Big Tornado

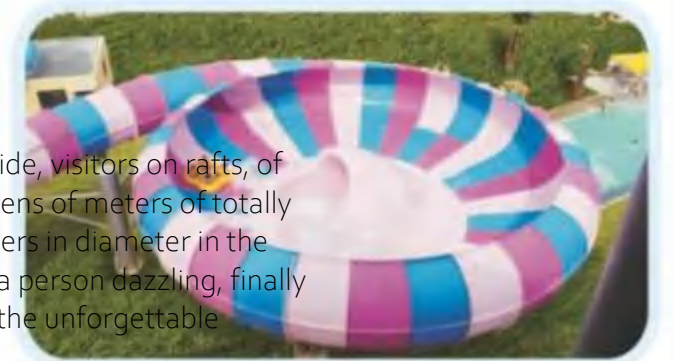

- Slide platform height:15.2m/18m
- Horn diameter:18m
- Slide diameter:2.73m
- Slide position:2raft slide
- Projected floor area:45×42m
- Maximum passenger capacity:
480people/H

The big tornado winning the Golden Ticket Award-Best New Project of the international tourism industry, is the star of waterpark and most popular why young people, Rafts carrying tourists slowly enter the closed chute from the platform higher than ten meters, under the action of gravity and water and in the dark, plunge into rapid falling suddenly form a turn in the dark In the fear of high-speed centrifugal weightlessness and amid coincidental cries, tourists on rafts, as flushed out of the closed dark chute, would suddenly see the outerworld. As rafts slow down, they slip to the bottom of the big tornado, then by the action of inertia, water and gravity, rise, sink and swing to the exit.

Giant beast bowl

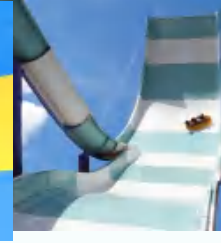

- Slide platform height:12m
- Entrance closed spiral section: diameter 1.4m, length 40m
- Bowl diameter: 12.4m
- Closed outlet section: diameter 1.4m, length 16m
- Slide style: falling pool type
- Passenger capacity:360people/H,480people/H

Water park equipment behemoth bowl slide is also called the spiral slide, visitors on rafts, of more than 13.5 m high platform sliding down, through a long and dozens of meters of totally enclosed tubular chute, high-speed into a "a huge bowl, about 15 meters in diameter in the centrifugal force, under the drive of tourists like rotation in space, let a person dazzling, finally drawn into the bowl in the middle of the hole Slide, visitors will enjoy the unforgettable experience, screaming will be accompanied by taxi.

Boomerango Slide

- Slide platform height:9m/12m/18m
- Cyclotron section width:3.5m/5.2m/7.5m/10m
- Slide accelerating diameter:1.4m/2.73m
- Projected floor area:46×17m(55x25m)
- Slide people:2people/raft,4people/raft
- Passenger capacity:360people/H,480people/H

One of the star attractions of the water park is the Boomerango Slide, which is most popular with families. Passengers take rafts from a platform more than ten meters high. Gently enter the slide under the action of gravity and current down, began to speed down, in the screams of the skin. The raft passes through the bottom and comes up at high speed go right angles of the subduction surface, and then repeated by gravity up and down, the raft spins freely at the same time, three dynamic experience of Dimension is unprecedented.

High speed Slide

- Slide platform height:9m,13m,15m,Customized
- Slide width:0.85m
- Slide length: Customized
- Slide people:1people/lane
- Passenger capacity:180people/H

The high speed slide is designed by the daresouls of the water park to push themselves to the limit. Without MATS, visitors slide straight and cling to each other at seven meters per second. With an almost vertical slide, visitors can experience a real plunge. In the feeling of splashing. Whether you experience it yourself or the view around you, everyone was overwhelmed by its surprise.

Hump slide

- Slide platform height:15m
- Slide length:70m
- Slide width:0.85m
- Projected floor area:12m×100m
- Slide people:1people/lane
- Passenger capacity:360people/H,240people/H

Hump slide is made to look like a wave of slide, tourists from 15 m high platform on slippery mat swooped down, reaching slide trough the peak value of maximum speed, and then under the action of inertial force to slide wave peak, after ebb and flow, finally rode to pool, visitors experience will cry enough, remembering that the ups and downs of pleasure.

Rainbow octopus Slide

- Slide platform height:15m,Customized
- Slide width:0.65m
- Slide length: Customized
- Slide people:1people/lane
- Lanes quantity:2~8lanes
